- **AVAILABLE IN 115V OR 230V POWER SOURCE**
- **OPERATE MULTIPLE UNITS WITH ONE CONTROLLER**

MODEL SPC AC VOLTAGE SPEED CONTROL

A dependable, economical and compact variable AC voltage supply manufactured especially for the vibratory feeder, fan, pump, heating, and lighting industries. All models feature single-phase AC input and fully variable AC output. This enclosed version comes with a rugged housing, power on/off switch, power on indicator lamp, front access fuse, as well as convenient input and output cords and plugs.

The heart of the control is a triac fired in a manner to adjust phase and thereby vary speed. The SPC is designed to work with shaded pole, permanent split capacitor, permanent split-phase, universal motors or any resistive load. It is not designed for capacitor start motors.
